ABOUT ME

I am a software developer with more than one year of experience in the field. I have worked on various projects, developing web application's front-end and back-end components. I have a good understanding of different web technologies, including HTML, CSS, JavaScript, and different frameworks and libraries like Angular. I am passionate about creating high-quality, user-friendly web experiences and am always looking to improve my skills and stay up-to-date with the latest technologies

Education

2017 – 2021 **Bachelor of IT Degree in computer science**
Al-Balqa Applied University

Professional Experience

2022/09 – present **Software Developer**
Amman, Jordan *Tahaluf Al Emarat Technical Solutions.*

- Designing and developing user interfaces for Internet applications. This involves setting clear expectations and feature priorities throughout the development life cycle. I determine optimal design methodologies and tool sets to ensure the efficiency and scalability of the solutions.

2019/07 – 2019/12 **FreeLancer**
Amman, Jordan *Remotely*
